# RELIEF Children Home

In Accra, we are running children's homes for girls with the support of **AMURT Italy**. We provide girls with nutritious food and offer them alternative education; we give them the opportunity to cultivate fine arts, such as music, dance and painting; and teach them moral principles. For instance, they learn to help the others as they visit the sick and give food to street people.

Visiting sick children at the Korlebu Hospital

GOOD NEWS: Funds from **AMURT Portugal** have been used to paint the children's home facilities and build a gutter for rainwater around the building. Many thanks to **Auntie Patty** and **Mr. Heman** for the rice they donated us, as well as to **Patricia Agyapong** for the beautiful clothes she donated along with some groceries. Everyone was very happy.

## Women's Medical Clinic

Clinic in Akwakwaa

Since 1984, **AMURT-EL** has been active in providing health services. We opened numerous primary health outposts in the rural areas of Greater Accra and in the Central Region of Ghana. **AMURT-EL** workers started out with pre-schools and supplementary feeding programmes in the Amasaman district (Obom Area) of the GA region. Yet, it became clear soon that one of the most urgent needs were primary health facilities because of the water-borne diseases such as guinea worm, cholera and yaws that were rampant at that time.

The clinic in Akwakwaa, Swedru district opened in 1999 and is still active today. In this clinic, we provide cheap medical treatment for local people.

# Non-profit schools

Since all school activities were suspended in March due to the pandemic, we have taken the opportunity to improve and beautify both facilities.

## Lotus Children Center

GOOD NEWS – Lotus Children Center, Accra, with the last-year funds from **Stephano** and **Arianna**, has been able to make many improvements, such as plastering the old walls and the floor in the refectory, as well as buying new furniture. They have also donated hand sanitizers for when we resume teaching activities with kids.

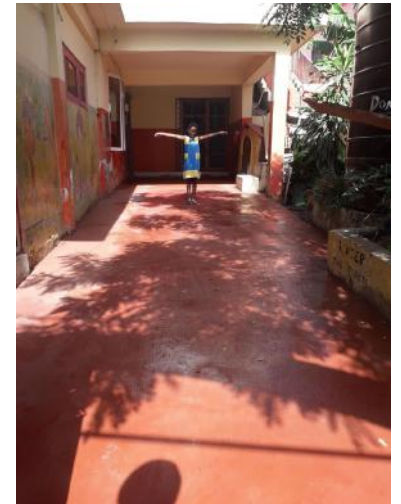

Besides, with the support of **Aile Universelle**, we have painted beautiful art works on the walls for the joy of the children. Nature was chosen as the main subject for those works of art to help children develop love for plants and animals. Thanks to this funding, we have been also able to paint all school facilities.

## GOOD NEWS

We have been using the place to train children to take care of an organic garden. Besides, a new office has been completed.

"5 per mille" 2019 donation from **AMURT Italy** was used to screed the classroom's ceiling and the top of the roof, as well as to paint two classrooms and an office.

**Michela** has donated stationaries and a fridge to the new school on the occasion of her birthday.

## APPEAL

**We urgently need to build a gutter at the entrance to make the place safer for young children who come to the facility. Besides, rainwater around the school weakens the fence. We are using gravel around the fence as a temporary fix for that problem.**

Rainwater around the school

For **donations** use the email [didigayatri@yahoo.com](mailto:didigayatri@yahoo.com) and the following AMURTEL account:

ANANDA MARGA UNIVERSAL RELIEF TEAM LADIES

**Fidelity Bank**

Account number: **2090 6254 22012**

SWIFT CODE: **FBIGHAC**

Sister Abhaya from AMURT Italy has fundraised among her friends to start this project, but we still need help to keep it going.

**Thanks to everyone who contributed to materialize these works. May you all have a blessed 2021 with great achievements in every sphere of life!**

**Didi A'nanda Gunamaya'**  
**WWD Accra Region Secretary**
